Start Dramatic Factory Improvement In Just Two Days

Join us for a hands-on course that shows your team how to see their factory in a whole new way.

2-Day Lean Techniques Training Course

Take the first step toward substantial improvements in team and factory performance – through engaging activities, real factory scenarios, and interactive simulations.

Plug In and Learn

Get hands-on with The Plug Game – a fun, practical, fast-paced factory simulation where you'll spot waste improve flow, and see Lean in action – not just in theory.

Interaction, Not Just Information

This isn't a lecture. It's packed with exercises, and group challenges that get your team thinking about their own factory and what they can do differently, starting now.

Fluere's Lean Companion

Every attendee recieves Fluere's Lean Companion – a practical, comprehensive guide you'll use again and again to apply the training on the shop floor.

Topics Covered

- Key principles of lean
- Value-adding and wasteful activities
- Value Stream Mapping (VSM)
- Factory layout and cells
- 5S and the visual workplace
- Single piece flow and set-up reduction
- Product flow and bottleneck management
- Load charts
- Pull and Kanban systems
- Process capability and quality

Call us now on 0113 824 2809 to start working smarter not harder.

MAKE YOUR TRAINING COUNT

Fluere trainers are **LCS-accredited**, and for just **£95 extra per person**, participants can gain **LCS accreditation** alongside their two-day Lean training.

DON'T JUST TAKE OUR WORD FOR IT.

Hear the feedback from our trainees.

"I very much enjoyed the plug game; it was simple but really got the points across that we had discussed in the training."

Richard Flanagan
Panel Wirer and Site Engineer

"Breaking the training between theoretical and practical worked really well, and addressed the challenge that different people learn in different ways."

Gavin Dinely
Design Engineer
